

Quality policy GEN Farma Rus LLC

We, the employees of GEN Farma Rus LLC, work according to the strategy: "All the best for people" and every day we follow these principles in order to meet the expectations of patients and our clients:

- Quality above all: compliance and maintenance of the Quality Management System is one of our daily priorities.
- Focus on safety: permanent monitoring of the safety of the product portfolio allows us to guarantee pharmaceutical care to all patients.
- Efficiency of activity: supervision of all stages of the life cycle of a medicine - from development to receiving patient's feedback after treatment, a medical employee's feedback.
- A meaningful approach to work: we carefully approach the issue of expanding the product portfolio and do this only if we are fully confident that the development is carried out in accordance with the principles of the Quality Management System.
